Government Girls Sen. Sec. School	79%

PROFILE

I am a passionate and ambitious web developer with a strong foundation in HTML, CSS, JavaScript, and design principles. I aim to create intuitive, user-friendly websites and applications that blend creativity with technical expertise. Eager to learn and grow in a collaborative environment, I'm committed to delivering impactful work that exceeds expectations in the tech industry.

WORK EXPERIENCE

Junior Web Designer	2007-2009
GS Design Art	
As a Junior Web Designer, I worked closely with the Senior Web Designer and developers to create responsive, user-friendly websites. My role involved assisting in the design process, from conceptualizing wireframes and mockups to refining final layouts, ensuring each design aligned with project goals and user needs.
